IN ALL OUR NEIGHBORHOOD

There Is Hardly A Woman Who Does Not Rely Upon Lydia E. Pinkham's Vegetable Compound.

Princeton, Ill.—"I had inflammation, hard headaches in the back of my neck and a weakness all caused by female trouble, and I took Lydia E. Pinkham's Vegetable Compound with such excellent results that I am now feeling fine. I recommend the Compound and praise it to all. I shall be glad to have you publish my letter.

There is scarcely a neighbor around me who does not use your medicine."—Mrs. J. F. JOHNSON, R. No. 4, Box 30, Princeton, Illinois.

Experience of a Nurse.
 Poland, N.Y.—"In my experience as a nurse I certainly think Lydia E. Pinkham's Vegetable Compound is a great medicine. I wish all women with female troubles would take it. I took it when passing through the Change of Life with great results and I always recommend the Compound to all my patients if I know of their condition in time. I will gladly do all I can to help others to know of this great medicine."—Mrs. HORACE NEWMAN, Poland, Herkimer Co., N. Y.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you want special advice write Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

LIMIT CANDIDATES' EXPENDITURES

LIMIT IS NOT HIGH ENOUGH, IT IS SAID, AND LAW PREVENTING CORRUPTION "INADEQUATE."

Oklahoma City, Okla., July 6.—It is expensive in any state to seek the nomination for state offices on the ticket that is generally found to be a winner. That is, it is expensive for the candidate who expects to make a showing. The laws of Oklahoma fix a limit upon the amount of money that a candidate shall expend or shall procure to be expended. The limit is not high enough.

It follows that in Oklahoma, as in Texas, there is always a suspicion that evasion has been practiced. The theory in Oklahoma is that while a candidate may keep within the limit as fixed by law, the amount that may be expended in his behalf by others who have not been designated by him to expend money and the expenditure of which he is not responsible for, is practically unlimited.

The law in this state fixes the amount that may be expended by several candidates as follows: United States senator or governor, \$3,000, other state offices \$1,500, supreme court \$1,000, congress \$800, district judge \$500, state senator \$250, legislative districts larger than county \$250, offices embracing single county \$200.

Law Not Adequate.

Vast sums are being expended on behalf of several candidates this year in Oklahoma. One of the reasons given by Dr. J. W. Duke of Guthrie the other day when he finally decided not to file his application for a place on the official ballot as a candidate for governor was that there is no adequate law in Oklahoma to punish corrupt practices in elections. His statement was in part as follows:

Dr. Duke's Statement.

"While I should be rejoiced to serve the state in response to the substantial desire of the people of this state, I have not been willing to expend, or to permit my friends to expend, one dollar in excess of the small amount permitted under the law.

"I know, of course, that this law can be evaded, and is being evaded, but I not only will not consent to do this myself, but I will not consent that it may be done in my supposed interest. We have no publicity pamphlet in this state by which the citizens would be directly advised by the claims of candidates, and it would cost to get the required and necessary publicity by a private citizen and his friends two and three times the amount the law permits.

"I would much prefer to continue the quiet life which I have heretofore enjoyed, trying to serve men within my chosen field, than to suffer any loss of self-respect, by becoming a candidate and evading, or permitting to be evaded, the laws of Oklahoma with regard to campaign expenditures."

RAILROAD NOTES.

The tax valuation of the Pennsylvania Railroad properties in Cuyahoga County, Ohio, has been increased from \$9,000,000 to \$14,000,000.

Stockholders of the Mississippi and St. Louis have approved plans for a merger of the two roads.

The American Museum of Safety has sent to one thousand railroads in this country the conditions for the completion of the Anthony N. Brady memorial medals. These medals are to be awarded to the electric railway company which for the year has done the most to conserve the safety and health of its employees and the public.

The railroad committee in Massachusetts legislation is divided on the bill to secure the divorce of the Boston & Maine. The federal authorities do not oppose the decision which provides that the state retain its claim on the stock.

The last of the costs in the Missouri rate litigation with the railroads which was begun in 1905, has been paid, the Burlington being taxed with more than \$20,000 of the total which exceeded \$28,000, twelve roads having been involved in the fight.

The drastic economy which the railroads of the eastern part of the country are exercising is well illustrated by the Baltimore & Ohio. For the last two months the purchases of materials by this road have been limited to the bare necessities. It is understood that the company's purchasing agents have been forbidden to order any supplies above \$5 in amount unless such purchase is first O. K'd by the president or one of the vice presidents.

The Maryland Steel Company, a subsidiary of the Pennsylvania Steel Co., has received an order for 16,000 tons of steel rails from the Queensland

government railway of Australia. This is a new business, and it is understood that the order was taken on favorable terms.

If interested roads approve a proposition agreed upon by transportation and accounting officers a new schedule of rates ranging from \$3 to \$8 for handling cars handled on other than mileage basis will become effective. Where owners participate in the business, the rate will be from 3 to 5 cts. a mile, according to the size and character of the car.

In the west there is a strong impression that the Chicago Great Western, the Chicago and Eastern Illinois, the Pere Marquette and the Detroit, Toledo and Ironton are on the verge of changes in their operation and management which will work changes in their present close relations with their connections.
